Avantatges

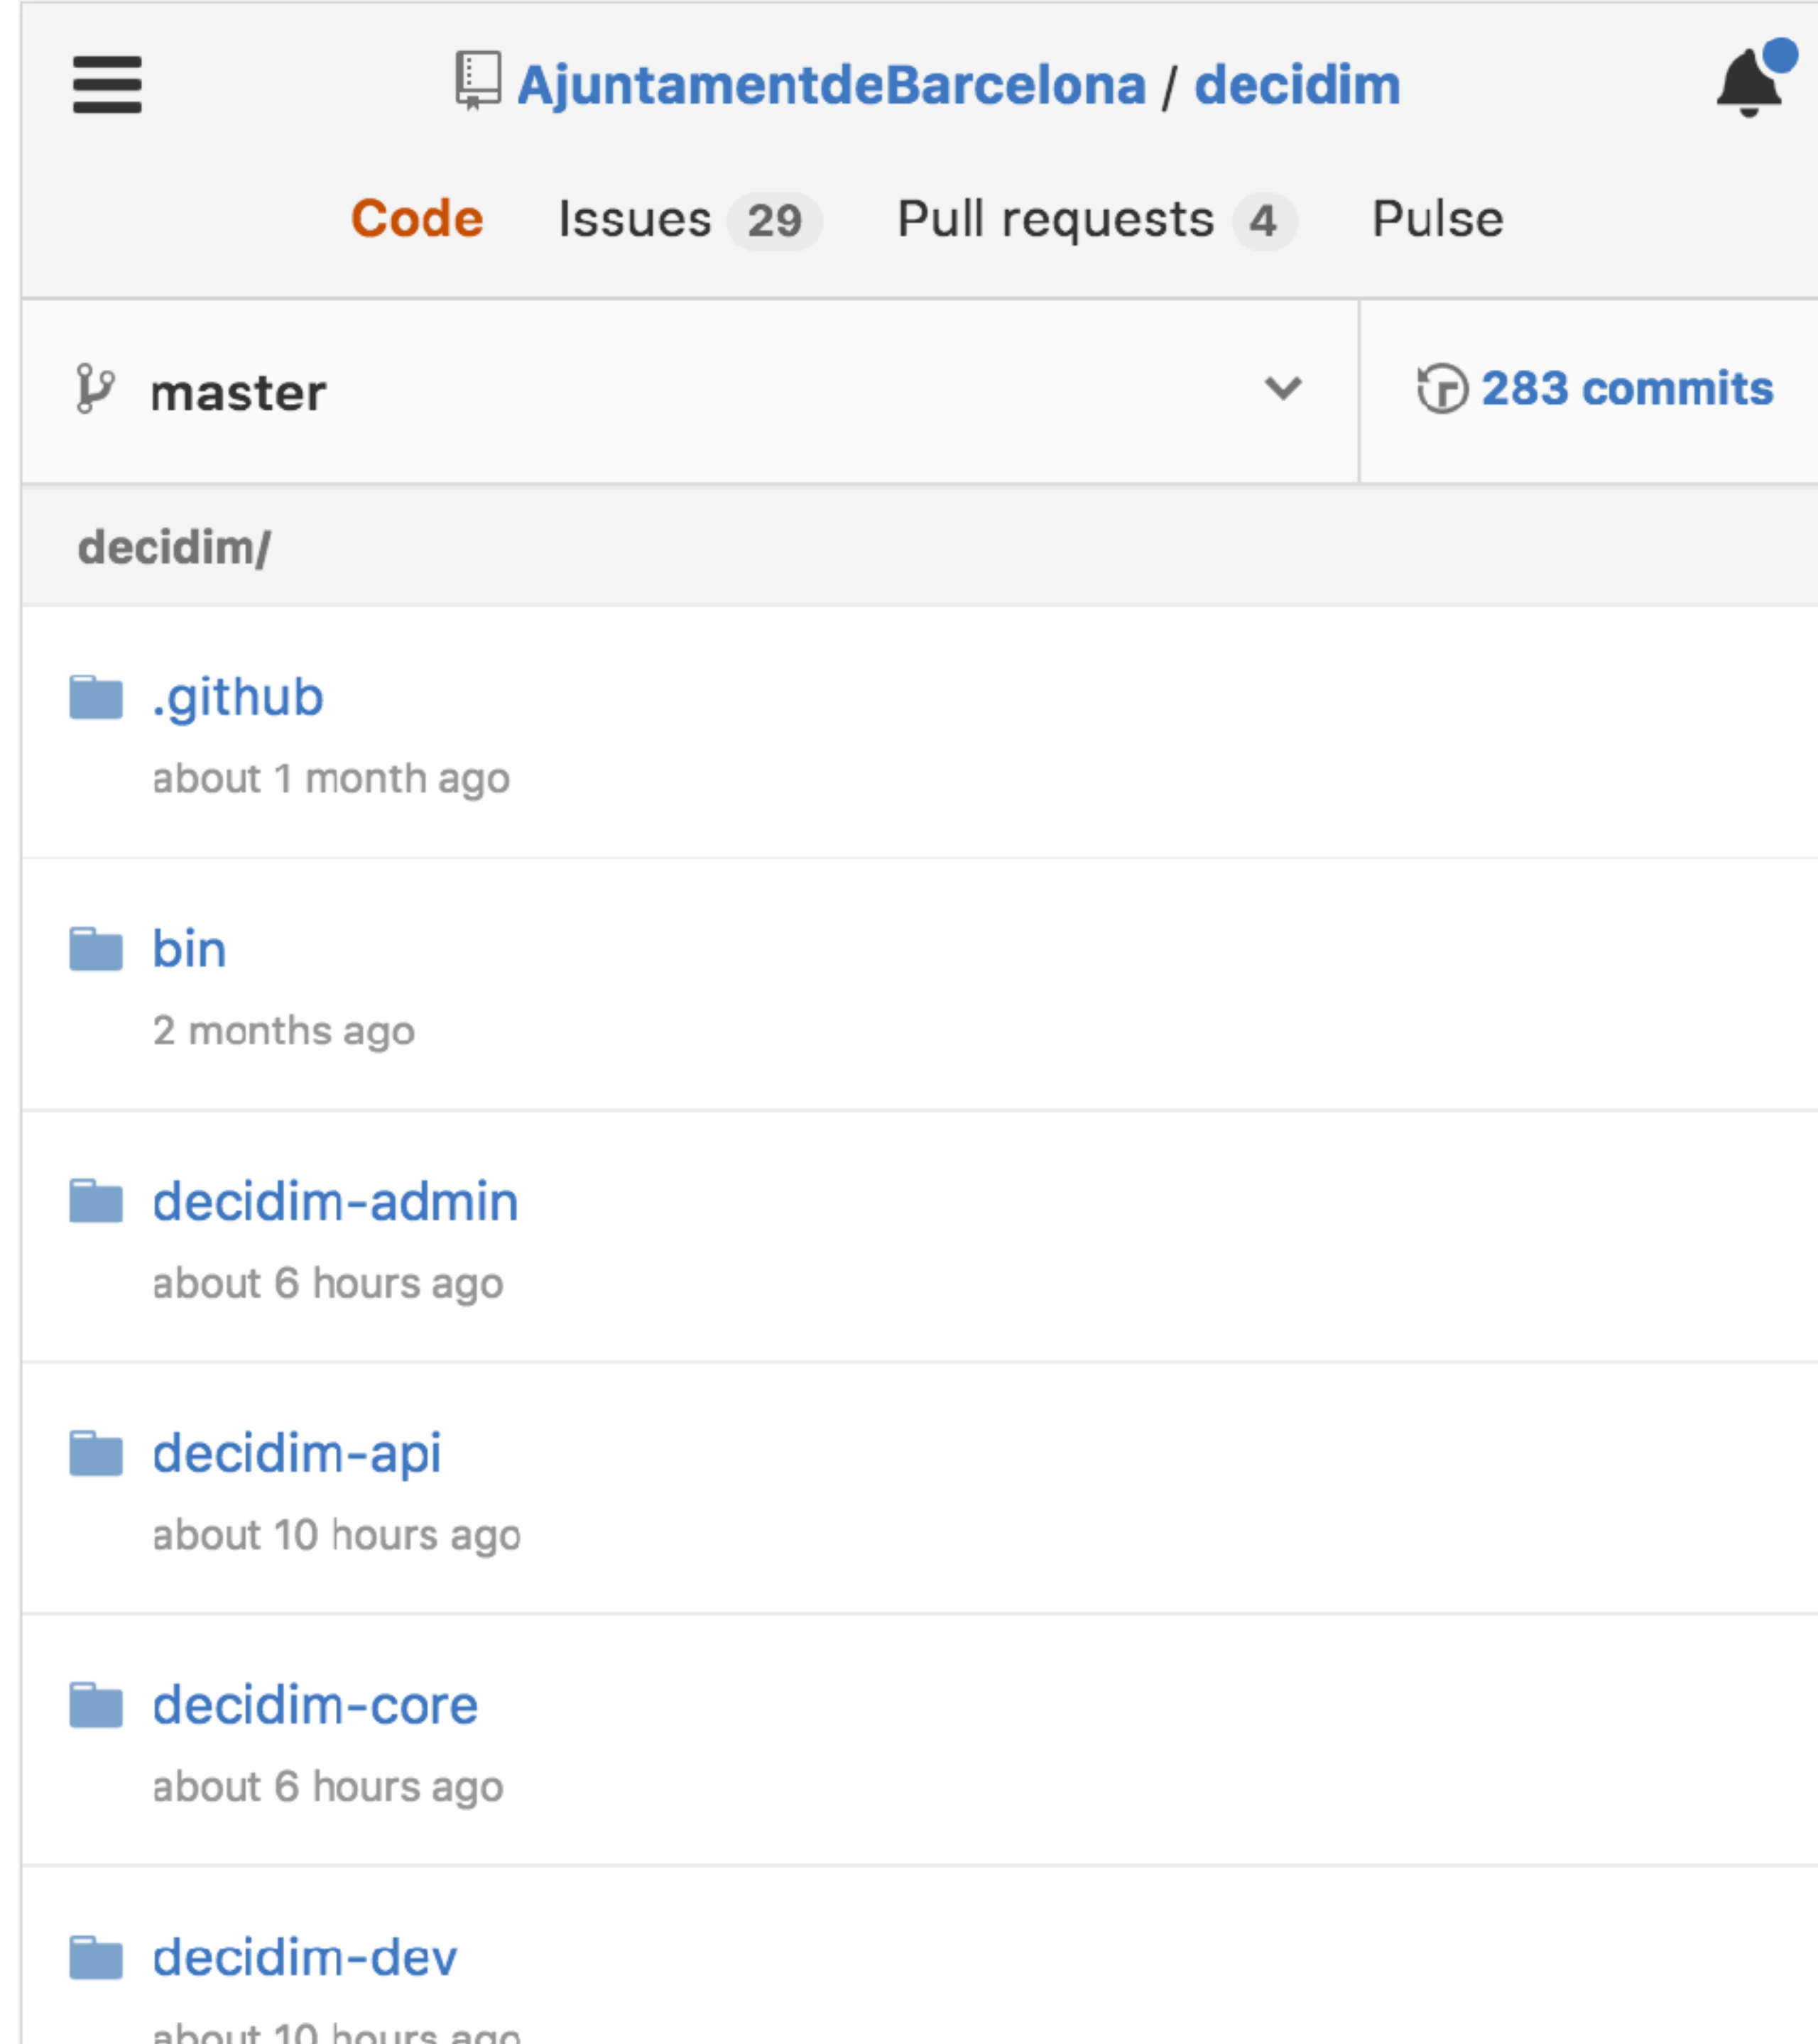

The screenshot shows the GitHub interface for the repository 'AjuntamentdeBarcelona / decidim'. At the top, there is a navigation bar with a hamburger menu icon on the left, the repository name 'AjuntamentdeBarcelona / decidim' in the center, and a notification bell icon on the right. Below the navigation bar, there are tabs for 'Code', 'Issues' (with a count of 29), 'Pull requests' (with a count of 4), and 'Pulse'. The main content area shows the 'master' branch selected, with a dropdown arrow and a '283 commits' link. Below this, the repository structure is displayed as a list of folders with their respective commit times:

- decidim/**
- .github** (about 1 month ago)
- bin** (2 months ago)
- decidim-admin** (about 6 hours ago)
- decidim-api** (about 10 hours ago)
- decidim-core** (about 6 hours ago)
- decidim-dev** (about 10 hours ago)

Avantatges

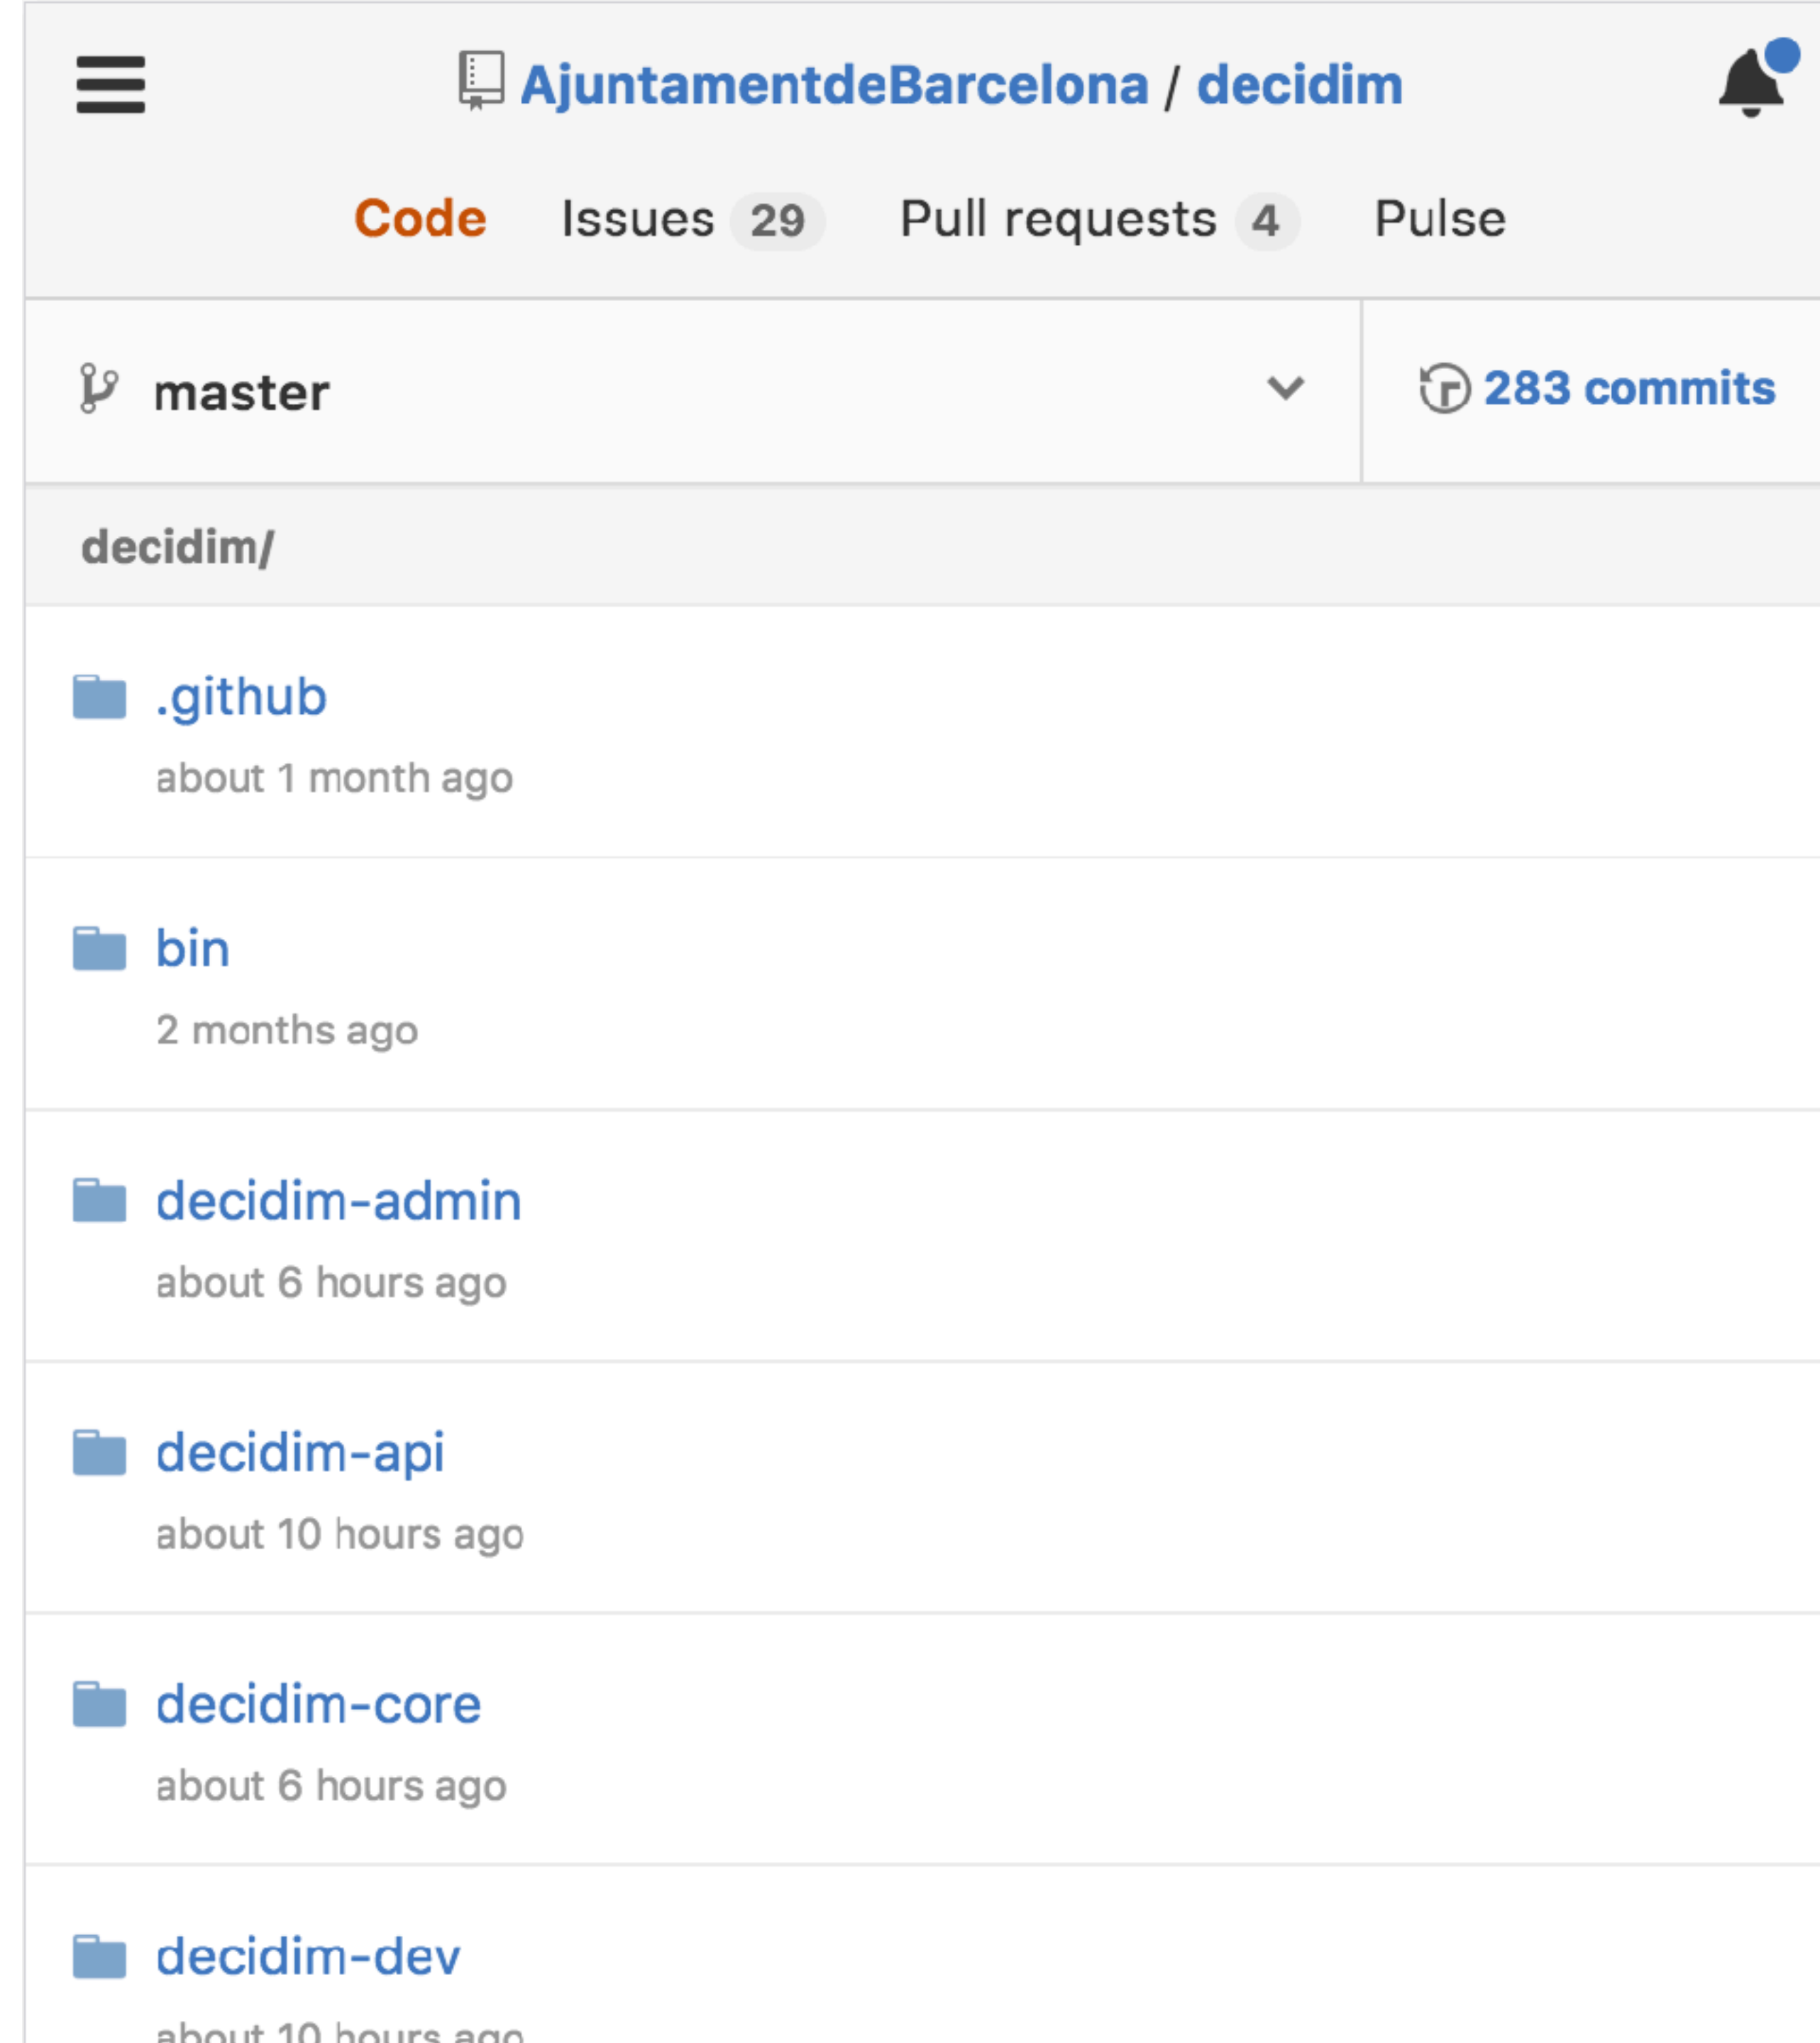

- Obert a **extensió**, tancat a **modificació**.

The screenshot shows the GitHub interface for the repository 'AjuntamentdeBarcelona / decidim'. At the top, there is a navigation bar with a hamburger menu icon on the left, the repository name 'AjuntamentdeBarcelona / decidim' in the center, and a notification bell icon on the right. Below the navigation bar, there are links for 'Code', 'Issues 29', 'Pull requests 4', and 'Pulse'. The main content area shows the 'master' branch selected, with a dropdown arrow and '283 commits' indicated. Below this, the repository structure is displayed, listing several folders: '.github' (about 1 month ago), 'bin' (2 months ago), 'decidim-admin' (about 6 hours ago), 'decidim-api' (about 10 hours ago), 'decidim-core' (about 6 hours ago), and 'decidim-dev' (about 10 hours ago).

Avantatges

- Obert a **extensió**, tancat a **modificació**.
- Versionat mitjançant **SemVer**

oriolgual committed on GitHub Change translatable_validates to translatable_presence. Closes 265 (#271) Latest commit b28c9f9 5 hours ago

.github	Add issue template (#139)	a month ago
bin	Fix rubocop issues	2 months ago
decidim-admin	Change translatable_validates to translatable_presence. Closes 265 (#271)	5 hours ago
decidim-api	Update dependencies (#276)	9 hours ago
decidim-core	Change translatable_validates to translatable_presence. Closes 265 (#271)	5 hours ago
decidim-dev	Update dependencies (#276)	9 hours ago
decidim-system	Locale settings (#252)	2 days ago
lib	Copy the demo authorization handler to the target app. Closes #256 (#267)	a day ago
spec	Add per engine seeds (#52)	2 months ago

The image shows a Kanban board with four columns representing different stages of a project workflow:

- Ideas (34):** Contains four task cards:
 - Use GraphDoc to display GraphQL documentation. Added by oriogual.
 - Setup CI & CD for decidim-app-builder and release it. Added by oriogual.
 - Document participatory processes features at Decidim::Admin. Added by oriogual.
 - Move authorization logic to commands in order to be able to reuse them in the API as cleanly as possible. Added by josepjaume.
- Icebox (6):** Contains three visible task cards:
 - Action Plans. Added by josepjaume.
 - Autogenerate process slug from default locale. #113 opened by mrcasals.
 - Add a default locale param in the GraphQL API. Added by josepjaume.
- Feature discussion (WIP) (4):** Contains three visible task cards:
 - Meetings. Added by josepjaume.
 - Proposals. Added by josepjaume.
 - Add versioning for Javascript third-party libraries. #173 opened by beagleknight.
- Definition Complete (12):** Contains five visible task cards:
 - Categories. #264 opened by mrcasals.
 - Migrate hstore columns to jsonb. #228 opened by oriogual.
 - Comments module. #160 opened by josepjaume.
 - Use the `DummyAuthorizationHandler` on the `staging` environment. #214 opened by josepjaume.
 - Add default locale and available locales at the organization level. #213 opened by josepjaume.

What? Why?

Rails' constant reloading causes errors in some cases. one of them is:

1. Restart the server
2. Visit the root path of the app
3. Visit `localhost:3000/api/docs` and watch the server fail

This PR ensures the constant is correctly loaded.
